# SWEET FLAVOR + MONSTER CRUNCH

The SnapDragon® apple is the internationally popular, vibrant offspring of Honeycrisp and another apple similar to Jonagold. Backed by over 10 years of development from Cornell University, SnapDragon® is known for its spicy-sweet flavor with a hint of vanilla and super crunchy texture. SnapDragon® offers good sugar levels and a low to moderate acidity. Consumers love this globally branded apple as an on-the-go fresh snack, in salads, desserts, and other meals.
